

Muhammad Nabiel Yandra

Undergraduate Information System Student at Brawijaya University

About Me

Dedicated Information Systems student at Universitas Brawijaya with hands-on experience in teaching programming and system engineering. Demonstrates strong analytical, teamwork, and communication capabilities developed across academic and event roles. Highly interested in Data Science and AI Engineering, eager to contribute technical skills to intelligent system development and impactful tech projects.

Skills

- Programming
- English Communication
- Teaching & Presentation
- Critical & Analytical Thinking
- Problem Solving
- Teamwork & Leadership
- Negotiation

Education

Undergraduate Information System Student

Universitas Brawijaya, GPA: 3.90 / 4.00 2024 - Present

Currently studying Information Systems, focusing on system development and intelligent technologies. Engaged in lab-based projects alongside faculty members at the Intelligent System Laboratory (IS Lab) FILKOM UB and exploring practical applications in Data Science and AI, supported by hands-on experience as a teaching assistant.

Experience

Teaching Assistant (International Class)

July 2026 - Present

Information Systems Engineering FILKOM UB 2026

Mentored 8 international class students in practical sessions conducted entirely in English, covering BPMN workflows and PHP web development, and evaluated course deliverables.

Teaching Assistant

February 2026 - June 2026

Advanced Programming FILKOM UB 2026

Taught and guided 41 students in Advanced Programming practical sessions, delivering core OOP concepts in Java, hands-on debugging guidance, and evaluation of coding assignments.

Lab Resident

February 2026 - Present

Intelligent System Laboratory (IS Lab) FILKOM UB

Working on lab-based Data Science and AI projects with faculty members, with teaching assistant roles carried out as part of this residency.

Staff of Quality Control

August 2025 - January 2026

PKKMB & Startup Academy FILKOM UB 2025

Oversaw the consistency and accuracy of event materials, documentation, and team outputs across divisions, and led review sessions to maintain quality standards.

Staff of Finance and Sponsorship

May 2025 - June 2025

Brawijaya English Tournament 2025

Secured event funding and managed partner relationships through proposal drafting, partner negotiations, and clear communication between sponsors and committee divisions.

Organizations and Achievements

Member of GDGoC Brawijaya University

Google Developer Groups on Campus, October 2024 - Present

Joined developer workshops, tech talks, and learning sessions.

National Business Model Canvas Competition Participant

Brawijaya Entrepreneur Festival (BEFound), August 2025

Developed a business model using the Business Model Canvas framework in a national-level entrepreneurship competition.

National English Olympiad Winner OBBIE TN 2023

Education Expo Universitas Sumatera Utara

Achieved the top score in a national-level olympiad testing English comprehension, grammar, and communication skills.
